HP Notebook Projection Companion

The power of rich, convenient, and compact projection in the palm of your hand.

When you need to present—to a client, colleague or potential customer—you want quick, easy, and impressive. HP has a projector for that. Designed for anybody who needs to project on the fly—sales professionals, managers, trainers, and educational personnel—the HP Notebook Projection Companion is compatible with HP Notebook PCs and all notebooks with a VGA connection. This ultra-portable accessory is powerful and durable enough to be your primary go-to projector whenever and wherever—in the office or on the road—you need to project a better image.

Small enough to carry with your notebook

Measuring just 3.6 x 1.6 x 4.4 inches (9.3 x 4.0 x 11.1 cm) and weighing less than a pound, this projector was designed to pack and go. It includes an expandable tripod and a handy carrying pouch that's so compact you can slide it seamlessly into your notebook case—with your notebook. The projector uses the same 65-Watt Smart AC adapter used by most HP notebooks, so you can share a single adapter.

Minimum size, maximum performance

The projector has innovative DLP technology and an impressive 100-lumen brightness and 800:1 contrast ratio. DLP technology uses light more accurately and efficiently to deliver ultra-precise details, vibrant saturated colors, and extraordinarily true-to-life images—at a distance up to 8.5 feet (2.6 meters) away.

Smart TCO

In addition to its convenient size and superb image quality, the HP Notebook Projection Companion offers a low total cost of ownership (TCO), keeping money in your pocket and waste out of the environment. The LED light source can provide up to 10,000 hours of usage (up to five years of typical use). This means you rarely have to buy or replace bulbs, so the initial purchase price of the projector is practically your only cost. This is an advantage over bulb-based projection solutions, which can require bulb replacements every year.

The projector is backed by HP's world-class service support and a one-year limited warranty. For more information, visit www.hp.com/notebook/accessories.

DLP A TEXAS INSTRUMENTS TECHNOLOGY

HP Notebook Projection Companion

Part number	AX325AA	**Projection distance**	8.5 ft (2.6 m)
